Thursday June 23, 2005 - Agenda

<u>Time</u>	<u>Topic</u>
8:00 – 10:00	Data Discussion
10:00 – 10:15	Break
10:15 – 12:00	Process Discussion
12:00 – 1:00	Lunch
1:00 – 2:30	Systems Discussion
2:30 – 2:45	Break
2:45 – 4:15	IUID Impact Discussion
4:15 – 4:30	Wrap-Up & Next Steps

Goals and Objectives

LeAntha Sumpter

Goals and Objectives

- Explore Integrated Data Environment across Acquisition, Logistics, and Maintenance
- Identify existing processes, transactions, and data sets for property transfer
- Identify issues, challenges, and opportunities for electronic paperless property management, including GFP
- Identify challenges and opportunities presented by IUID for property management

DLMSO Transaction Sets

Ellen Hillert

Data Discussion

- What data is captured is captured in Property Management Systems?
- What is the core data set required for property transfer?
- What is the maximum data set?
- What is the overlap with IUID data?

Process Discussion

- **How does property enter a system?**
- **How are property records updated?**
- **How does property leave/transfer?**
- **What transactions are used?**
- **What roles are involved in the transactions?**

Systems Discussion

- What interfaces are built into other systems?
- What other systems are you talking to?
- What are those systems used for?

IUID Impact Discussion

- **How is IUID impacting property systems?**
- **What opportunities does IUID present?**
- **How should property systems connect to the UID registry?**
- **What functionality would you like to see of the IUID registry?**
